

Paediatric Services Directory

2023 Edition

Welcome

I am very pleased to introduce our new Paediatric Services Directory, intended to show those consultants who can see paediatric patients as well as our paediatric diagnostic capability.

We are delighted that we are able to provide a comprehensive range of services for children and young persons across a range of diagnostic and outpatient services. We will be looking to add to this portfolio and would welcome enquiries from any consultants looking to provide paediatric services within Phoenix.

I do hope you will find this informative and of benefit to you and your patients.

With very best wishes
