

Paediatric Services Directory

2025 Edition

Providing exceptional care across
Essex, Hertfordshire, London and Kent

Welcome

I'm thrilled to introduce our new Paediatric Services Directory, designed to highlight our consultants who specialise in paediatric care and showcase our services capabilities tailored for young patients across all our locations. Our paediatric services are located across our sites in Harley Street (Central London), Chelmsford (Essex), Hatfield (Hertfordshire) and Ashford (Kent).

We are proud to offer a comprehensive range of diagnostic and outpatient services for children and young people. With this directory, we aim to ensure that accessing expert paediatric care is as straightforward as possible.

With very best wishes

A handwritten signature in grey ink, which appears to read 'Andrew Barker'. The signature is fluid and cursive, with the first name 'Andrew' and the last name 'Barker' clearly distinguishable.

Andrew Barker

Chief Executive Officer

A young girl with light brown hair, wearing a green cable-knit sweater, is smiling and looking up at a healthcare professional. She is holding a small, light brown teddy bear in her lap. The healthcare professional, wearing glasses and a white lab coat with a stethoscope, is also smiling and looking down at the girl. The background is a bright, out-of-focus indoor setting. A white rectangular box is overlaid on the image, containing the text "Paediatric Services".

Paediatric Diagnostic Imaging Services

Our team are experts in their field and have developed a reputation for delivering superior scans, coupled with excellent reporting by leading radiologists across our locations.

MRI

A Paediatric MRI is a safe, non-invasive scan that uses strong magnets and radio waves to create detailed images of a child's body, helping doctors diagnose and treat medical concerns accurately.

X-Ray

An X-ray is a quick and easy way to get a detailed picture of a child's body. It is used to diagnose bone injuries, dental issues and chest infections, allowing for rapid treatment decision making.

Ultrasound

A Paediatric ultrasound is a safe, non-invasive procedure that uses sound waves to create images of a child's body. It helps doctors see organs and tissues in real-time, allowing for accurate diagnosis and treatment.

Paediatric Blood Tests

Paediatric blood tests are essential diagnostic tools that help identify a wide range of medical conditions in children, from infections and anemia to more complex disorders like diabetes and genetic conditions.

Our trained staff play a vital role in ensuring the process is as smooth and stress-free as possible. They use child-friendly approaches to minimise discomfort and reassure young patients, to obtain accurate samples for reliable results.

- ✓ Chelmsford
- ✓ Ashford
- ✓ Hatfield

A close-up photograph of a female doctor with dark hair, wearing blue scrubs and a stethoscope, smiling warmly at a young child. The child, who has dark skin and curly hair, is also smiling broadly and looking up at the doctor. The doctor's hands are gently holding the child's arms. The background is a soft, out-of-focus blue.

Our Specialists

Audiology and ENT Services

Our paediatric audiology and Ear, Nose and Throat (ENT) services offer comprehensive care for children's hearing and ENT health, ensuring early diagnosis and effective treatment in a child-friendly environment.

Our experience at Phoenix Hospital's ENT clinic was excellent from start to finish. My daughter was a little anxious before her appointment, but the kind and welcoming staff quickly put her at ease. The paediatric ENT specialist was incredibly patient, compassionate, and thorough - taking the time to explain everything clearly and answer all our questions without rushing us.

The care and attention we received made a potentially stressful situation feel calm and manageable. From the warm reception team to the specialist's thoughtful approach, every aspect of the visit reflected professionalism and genuine care. We left feeling reassured, informed, and very grateful. I wouldn't hesitate to recommend to other families.

"Exceptional care from start to finish! My daughter was a bit anxious before her appointment, but the staff were so warm and made her feel at ease right away. The paediatrician was patient, answered all our questions, and took great care in explaining everything to us. Thank you,
